Industrial ONU

Date: 2024-05-23

Overview

OptiXstar T602E is an optical network unit (ONU) designed for industrial campus. It provides four GE ports, bringing high-quality business experiences.

Features & Benefits

- Compact design, plug-and-play, and easy installation
- 802.1x and IPv6/IPv4 firewall, ensuring device access security and network security
- - 40° C to +70° C wide temperature range, strong environment adaptability
- High reliability, 6 kV surge protection in common mode, and type B dual-homing service protection
- Multi-network convergence, supporting ONU port-level hard-isolated. Different ports of an ONU can be securely connected to multiple networks through the hard-isolated technology.
